EDUCATION

- 2010-2014 ● primary school
Lutherschule, 1180 Vienna, Schumannngasse 17
- 2014-2018 ● secondary school
BRG 18, 1180 Vienna, Schoppenhauerstraße 49
- since 2018 ● higher technical school for media design
HTBLuVA Wien 5, 1050 Vienna, Spengergasse 20

EXPERIENCE

- 2018 ● **Practical Days at Trafo Architektur Kirchmayr und Nöbauer GesbR., Vienna**
 - Working on an architectural project as a team
 - 3d-modelling in AutoCAD
 - Designing an environment model for a planned project
- 2020 ● **Internship bei LOYTEC electronics GmbH., Vienna**
 - Softwaredevelopment with C# in WPF
 - Designing an interface for establishing connections with automation devices
 - implementations of TCP connections to Linux-devices
- spring 2022 ● **Search Engine Optimization for MCH Media Consulting & Holding GmbH., Vienna**
 - Optimization of the project structure for better indexing
 - Keyword optimization
 - Performance optimizations, like the implementation of caching
- summer 2022 ● **Browser-Game against Fast-Fashion for the MAK., Vienna**
 - Gamedevelopment in Unity
 - 3d modelling in Blender
 - Interactions between players using a Node server

SKILLS

Unity (Game-Dev)

4 Jahre practical experience mit Unity, 2d & 3d
Programmierung in C#

Vulkan, WebGPU (Graphics programming)

Low-level implementation of **simulations**
Programmierung in C++ & Rust

3d in Blender & Substance Painter (Design)

Creations of 150 Daily-Renders
Game-ready-assets

2d in Figma, Photoshop & Illustrator

2d-graphics for Unity-Games
Website-Designs

React, Svelte, WebAssembly (Web)

HTML, CSS, **TypeScript**, Javascript, **Wasm** in Rust

— ÜBER MICH —

For 4 years I have been learning game development at the HTL Spengergasse.

In numerous projects there I learned **Unity** as a tool and programming in **C#**.

The other important part of the education was 3d design, in **Blender**, mixed with some audio and 2d art in **Photoshop**, **Illustrator** and **Figma**.

At LOYTEC and MAK, my programming skills were also challenged in other areas, like **networking**.

In addition to school, I taught myself **web development** and **graphics programming**. Topics that were later applied to various services.
